

Do not stop the DO NOT CALL laws in NJ. We are a family of 5 trying to raise a close family. There are enough phone calls in our day without having to answer the phone from telemarketers. Although I would prefer to hang up on them we teach our children to have good manners and continually have to politely get them off the phone. The do not phone laws have given us more minutes together as a family. (Since they seem to only call in the evening).
